

## VC LEADS UNIVERSITY MGT ON CONDOLENCES

The Vice Chancellor, Professor Ibrahim Hassan Garba has led the University management on condolence visits to the Emir of Bauchi, Dr Rilwanu Sulaimanu Adamu, Dr Fatima Umar Zambuk and the family of late Muhammad Garba.

The Emir, Dr Rilwanu Sulaimanu Adamu lost his paternal uncle, Alhaji Aminu Adamu Jumba (Bunun Bauchi). Dr Fatima Umar Zambuk lost her thirteen year old daughter, Aisha Abdullahi Enagi, in a ghastly Motor accident while Muhammad Garba, a dedicated staff of the Lodges Unit of the University lost his life after a brief illness.

At the Emir's Palace, the Vice Chancellor extended the heart felt condolence of the entire University community to the royal family over the loss and prayed that Allah will shower His mercy on the soul of the departed. He said that the loss is not only for the royal family alone, but entire Bauchi people who have lost a father.

Responding, the Emir thanked the University management for the condolence visit and assured that the good gesture is highly appreciated. He commended the cordial relationship

between the University and the palace and assured that the tempo will not be allowed to diminish.

At the residence of Dr Fatima Umar Zambuk, the Vice Chancellor called on the family to accept the loss as a Will from Allah and expressed the hope that Allah will give them the fortitude to bear the loss. He said that it is painful to lose a child but Allah has willed it and He loves the departed more than we all do.

Dr Fatima Umar Zambuk thanked the management for the visit and extended the same to the University community for the show of love and concern to her family and pray that God will reward everyone abundantly.

Similarly, the Vice Chancellor called on the family of late Muhammad Garba to bear the loss with courage, as it is not easy to lose a breadwinner. He extolled the good character of the departed as a dedicated person in his assigned duties and selfless in delivering his responsibilities.

## ARMY, FRSC PAY COURTESY CALL ON VC

The Abubakar Tafawa Balewa University Bauchi will collaborate with the Nigerian Army Armour Corps, Bauchi and the Federal Road Safety Corps, Bauchi Command in the area of Training, Research and development

This agreements came when the two organizations paid a familiarization visit to the University and received by the Management at

the Council Chamber, Prof. Buba G. Bajoga Senate building in Gubi Campus on June 2, 2026

The Vice Chancellor Prof. Ibrahim Hassan Garba, who received the separate teams on behalf of the University, assured the leadership of both organizations that the visit will remain fresh in the minds of the University management as a sign of good intent whose benefits the

University will try to collaborate and actualise.

He said as a specialised University of Science and Technology, collaborating with these organizations will greatly enhance the research base of the University. He said that with the Center of embedded Artificial intelligence, the University has many things to

Cont. from Page 1

offer for the organizations and he requested that the leadership of the two organizations should find time to visit the Centre and see for themselves.

He said his administration operate an open door policy especially in the area of collaborations which will bring about cross fertilization of ideas, adding that the University has three Campuses in Yelwa, covering with 300 hectares of land, Tafawa Balewa Campus, which is 72 kilometers away from Bauchi metropolist with 300 hectares of land and Gubi Campus which has 4,800 hectares of land. The mini campus at the ATBU Teaching Hospital hosted MBBS, Nursing and Public Health. All these campuses he said, require the input of the two organisations in keeping them safe and peaceful.

## ATBU DAIRY CENTER FEATURE AT NATIONAL CONFAB

Nigeria's ambition to achieve self-sufficiency in milk production came under renewed focus on Tuesday as stakeholders in the dairy value chain called for stronger sub-national participation, warning that national progress will remain limited without decisive action from state and local governments.

The call formed the central message of a high-level panel session themed "Mainstreaming Dairy Development Policy at the Sub-National Level for Self-Sufficiency: Opportunities, Challenges and the Way Forward," which brought together leading experts, policymakers, and industry operators in Abuja.

The session examined structural gaps in Nigeria's dairy ecosystem and explored how policy, research, investment and private sector engagement could be better aligned to unlock local production

Nigerian Army Armour Corps Bauchi, Major General Umar B. Abubakar said he was in the University to cement the existing relationship between ATBU and the Nigerian Army Armoured Corps Bauchi and to

the existing relationship to the next level.

He said he is in touch with the Nigerian Airforce Special Operations Command, Bauchi, and other sister

explore more ways of Collaborations with the University and to improve potential.

Delivering a key presentation, dairy expert and Acting Director of the TETFund Centre of Excellence on Dairy Research and Development, Abubakar Tafawa Balewa University, Bauchi, Prof. Demo Kalla, said Nigeria's dairy transformation depends heavily on sub-national governments taking ownership of the sector.

He explained that mainstreaming dairy development at state and local government levels requires more than policy awareness, but deliberate integration into planning frameworks, annual budgets, investment promotion strategies, and rural economic development programmes.

He said that treating dairy as a federal-level livestock initiative alone has limited impact because actual milk production takes place in rural communities where farmers operate. 2

security agencies in the State to ensure a crime free society adding that training and retraining of his staff in both administration and technology oriented skills are paramount to the development of the Country.

Similarly, in his separate Comment the Sector Commander RS 12.1 Bauchi Sector of the Federal Road Safety Corps Bauchi, Sector Commander Calep Luka said they were in the University to familiarize and collaborate with the University in the area of training, education and enlightenment.

The Sector Commander said his organization offer many services which include training of drivers, traffic control, the production of number plates and also regulating the activities of driving school and he urged the University to establish a driving School because he believed in what the University can produce which they will help create job for the teaming unemployed youth in the country.
